

Press Release - FOR IMMEDIATE RELEASE

Silicon Valley Europe and German Indian Business Alliance (GIBA) Announce Strategic Partnership to Advance Semiconductor and Space Ecosystems

HEIDELBERG, GERMANY / NEW DELHI, INDIA – Silicon Valley Europe (SVE) and the German Indian Business Alliance (GIBA) are proud to announce a new strategic cooperation aimed at bridging the high-tech corridors of Europe and India. This partnership will focus specifically on fostering innovation, trade, and investment within two of the most critical sectors for the future global economy: Semiconductors and the Space Industry.

As India ascends to its position as the world's 4th largest economy and Germany continues to lead Europe in engineering excellence, the need for a dedicated "Innovation Bridge" has never been more vital. This collaboration leverages SVE's venture-driven ecosystem and GIBA's deep-rooted network to create a trilateral synergy between European capital, German engineering, and Indian scale.

Driving the Future of Deep Tech

The partnership will center on a series of high-impact initiatives designed to connect industry leaders, startups, and policymakers:

- **Joint Industry Events:** A calendar of premium summits and webinars focusing on supply chain resilience in the semiconductor sector and commercial opportunities in NewSpace.
- **Strategic Networking Meetings:** Curated "matchmaking" sessions to connect German and European hardware innovators with Indian software experts and manufacturing partners.
- **Bilateral Trade Missions:** Facilitating "soft-landing" opportunities for aerospace and silicon startups looking to expand their footprint across the Euro-Indian axis.

Executive Commentary

"India's youthful demographic and rapid digital transformation, combined with Germany's status as an innovation powerhouse, create a unique window of opportunity," said **Selvakumar Periasamy**, spokesperson for GIBA. *"By partnering with Silicon Valley Europe, we are ensuring that our members are not just witnesses to global shifts in the Semiconductor and Space industries, but active architects of them."*

"The Semiconductor and Space sectors require immense capital, specialized talent, and international cooperation," added **Michael Mattis**, Founder and CEO from Silicon Valley Europe. *"Through this alliance with GIBA, we are creating a streamlined pathway for*

companies to access the talent of India and the industrial precision of Germany, accelerating the pace of breakthrough innovations."

A Future-Ready Alliance

This cooperation aligns with the broader Germany-India strategy to tackle global challenges such as digital sovereignty and sustainable infrastructure. By focusing on the "building blocks" of modern technology—chips and satellite data—SVE and GIBA are setting the foundation for a resilient, future-ready economic partnership.

About Silicon Valley Europe (SVE)

Silicon Valley Europe is a leading innovation platform dedicated to fostering a venture-capital mindset within the European tech landscape. By connecting startups, investors, and corporate partners, SVE accelerates the growth of deep-tech ecosystems across the continent.

About the German Indian Business Alliance (GIBA)

The German Indian Business Alliance (GIBA) is a premier network committed to strengthening bilateral relations between Germany and India. With a focus on dialogue, collaboration, and prosperity, GIBA serves as a catalyst for businesses to thrive in an increasingly interconnected global market.
